

Graduate Transportation Course Offerings – Spring 2012

USF offers a variety of graduate transportation courses to support your professional development and academic advancement. With shifting national priorities, the increasing interest in transportation infrastructure, urban development and sustainability, transportation safety, and the reauthorization of federal transportation legislation, all lead to growing importance for transportation professionals. There is no better time than now to update your skills and knowledge base. Also, it has never been more convenient with opportunities to attend evening classes at USF or via distance learning using internet from wherever you are (and whenever your schedule permits).

Course	Number	Schedule	Instructor
