Multimodal Traveler Information Systems
April 25-26, 2007 Tampa, Florida

COURSE DESCRIPTION
Transit, traffic, and multimodal advanced traveler information systems (ATIS) are burgeoning and many lessons are being gained concerning their implementation and operation. Also, more knowledge is being gained on the type of information travelers want and expect. The purpose of this course is to identify the issues, requirements, recommendations, lessons learned, and best practices of implementing and operating transit, traffic, and multimodal ATIS systems. Subjects to be discussed include, but are not limited to, the following:

- 511
- transit traveler information systems
- traffic traveler information systems
- multimodal traveler information systems
- ATIS building blocks
- Automated trip itinerary planning systems and other pre-trip information
- En-route information

AUDIENCE
The primary audience will be transit and highway project managers, senior planners at transit agencies, highway agencies and Metropolitan Planning Organizations, implementers, and operators of transportation organizations that have or are planning to deploy these systems. The course will also interest transportation systems analysts as well as traffic engineers working in major metropolitan areas and high volume tourist areas. This course pre-supposes some prior knowledge of information technologies for either transit or highway systems.

REGISTRATION INFORMATION
You may register for this course by faxing to CUTR the form on the back of this brochure. Class space is limited, so register today to avoid disappointment. A confirmation packet will be forward to each registrant with campus map, parking pass, schedule and hotel information. Cancellations must be made 15 business days before class. There are no fees to attend this session for federal, state and local government employees who work in transportation related areas. The fee for contractors/consultants is $300. CEU: 1.6 The deadline for registration is Friday, March 23, 2007. All training is held in accessible facilities. Please advise CUTR a minimum of three weeks in advance if you require any special arrangements or materials.

If you would like to attend this session, fill out the attached form, and fax to:
