TRANSIT SYSTEM SECURITY (FT00432)

January 14-18, 2008    South Daytona, Florida

COURSE OVERVIEW
Participants will receive the necessary information to develop a system security program plan and implement the program. They will be shown how to use resources to reduce crime and improve passenger and employee safety. This course provides participants with a uniform format for developing and implementing security policies and procedures through a system security program plan with crime prevention as the major component. Included are basic security terms, the eight steps in threat and vulnerability identification, and resolution process. The course addresses security in system planning, design and construction, agency policies and procedures, managing special security issues, and various types of transit security staffing.

COURSE ELEMENTS
- Introduction to system security
- Why transit security
- Terrorism
- Weapons of Mass Destruction (WMD)
- Handling WMD threats
- Developing a System Security Program (SSP)
- Development of a SSP and security policies and procedures
- Threat and vulnerability assessment
- Incident command system and coordination of response efforts and resources (NIMS/NRP)
- Security force establishment
- Problem oriented/problem solving security
- Managing the media
- Crime prevention
- Selling security to management and the public
- Group exercises: Security issues and TVA/Security Assessment
