**Tuesday, June 16, 2004**

**Conference Registration**
4:00 a.m. - 12:00 p.m.

**Hotel Opening Social**
How Do You Learn?

**Vehicle Technologies Session**
10:30 a.m. - 12:00 p.m.
10:30 a.m. - 10:45 a.m.
Vehicle Technologies: Design and Development
This session will explore the layout, development, and design of vehicles, including the development of driver-assistance systems.

**Curt Gravely Memorial Session**
10:45 a.m. - 12:00 p.m.
Gravely Memorial Session: Design and Development
This session will explore the design and development of vehicles, including the development of driver-assistance systems.

**Panel Discussion: Simulation and Model Development**
12:00 p.m. - 12:45 p.m.
This panel discussion will explore the role of simulation and model development in vehicle design and development.

**New Product Presentation**
12:45 p.m. - 2:00 p.m.
New Product Presentation: Design and Development
This presentation will showcase new products and technologies in the field of vehicle design and development.

**Conference Session II**
2:00 p.m. - 4:00 p.m.

**Vehicle Technologies Session**
2:00 p.m. - 2:30 p.m.
Vehicle Technologies: Design and Development
This session will explore the layout, development, and design of vehicles, including the development of driver-assistance systems.

**Curt Gravely Memorial Session**
2:30 p.m. - 3:45 p.m.
Gravely Memorial Session: Design and Development
This session will explore the design and development of vehicles, including the development of driver-assistance systems.

**Panel Discussion: Simulation and Model Development**
3:45 p.m. - 4:30 p.m.
This panel discussion will explore the role of simulation and model development in vehicle design and development.

**New Product Presentation**
4:30 p.m. - 5:00 p.m.
New Product Presentation: Design and Development
This presentation will showcase new products and technologies in the field of vehicle design and development.

**Conference Session II**
5:00 p.m. - 6:30 p.m.

**Vehicle Technologies Session**
5:00 p.m. - 5:30 p.m.
Vehicle Technologies: Design and Development
This session will explore the layout, development, and design of vehicles, including the development of driver-assistance systems.

**Curt Gravely Memorial Session**
5:30 p.m. - 6:45 p.m.
Gravely Memorial Session: Design and Development
This session will explore the design and development of vehicles, including the development of driver-assistance systems.

**Panel Discussion: Simulation and Model Development**
6:45 p.m. - 7:30 p.m.
This panel discussion will explore the role of simulation and model development in vehicle design and development.

**New Product Presentation**
7:30 p.m. - 8:00 p.m.
New Product Presentation: Design and Development
This presentation will showcase new products and technologies in the field of vehicle design and development.

**Conference Session II**
8:00 p.m. - 9:30 p.m.
