

Natural Gas Fuel Fleet Vehicle Rebate Program

Florida Department of Agriculture and Consumer Services
Office of Energy

About Us

- The Office of Energy was moved to the Florida Department of Agriculture and Consumer Services (FDACS) on July 1, 2011
- We've combined our programs with existing FDACS programs such as the Farm to Fuel initiative
- Since joining FDACS, the office's focus has shifted from grant management to policy

HB 579

- **Passed in the 2013 Legislative Session**
 - Addresses taxation natural gas fuels
 - Licensing of natural gas fuels
 - Reporting of natural gas fuels

- **Section 17 – Natural Gas Fuel Fleet Vehicle Rebate**
 - (1) CREATION AND PURPOSE OF THE PROGRAM – There is created within the Department of Agriculture and Consumer Services a natural gas fuel fleet vehicle rebate program. The purpose of this program is to help reduce transportation costs in this state and encourage freight mobility investments that contribute to the economic growth of the state.

Program Specifics

What is eligible for a rebate?

- The purchase or lease of a natural gas fleet vehicle
 - Up to \$25,000 (but not more than 50%) of the incremental costs
 - *“Incremental costs” mean the excess costs associated with the purchase or lease of a natural gas fuel motor vehicle as compared to an equivalent diesel or gasoline-powered motor vehicle.*

- Conversion to a natural gas fleet vehicle
 - Up to \$25,000 (but not more than 50%) of the conversion costs

- Eligible vehicles must have been “placed in service” on or after July 1, 2013

Program Information

- \$6 million per year, for 5 years
 - Funding is based on legislative allocation
- The allocation is split into two pots
 - 60% (\$3.6m) of the funds are reserved for commercial applicants
 - 40% (\$2.4m) are reserved for governmental applicants
- Rebates distributed on a first-come, first-served basis
 - Applications for year two of the program began being accepted on July 1, 2014
- Economic data collected with each application
 - Data will be included in a report due to the Governor and Legislature on October 1st of each year of the program

Review Process

- It takes up to 60 days for applications to be reviewed
 - After review, a letter will be sent to each applicant notifying them of the status of their application
- Each application will be reviewed by at least three staff members
 - The Office of Energy has developed a review check-list to aid in review and to ensure that the review process is consistent and replicable
 - Applications that are approved after the first two reviews go to the OOE's budget section for a review and for final approval from either the Director or Deputy Director
- If an application is incomplete:
 - The applicant will be sent a list of their application's deficiencies and be given a chance to re-submit, though they lose their original place in the first-come, first-served line
- After our office's review, eligible applications are sent to FDACS Financing and Accounting for their approval
 - Pending Finance and Accounting's approval, applications are then sent to Department of Financial Services for a final review and the issue of payment

Where Are We?

- Currently in Program Year 2 (July 1, 2014 – June 30, 2015)
 - As of February 9, the second year of the program has received 527 applications
 - \$3,373,899 has been disbursed through the second year's funding.
 - ~\$1,000,000 remaining in the commercial pot
 - ~\$1,625,000 remaining in the public pot
- FDACS economist estimates the first six months of the program led to the creation or retention of 382 jobs and contributed an estimated \$127.9 million to Florida's GDP.

The application form and applicant list are available on our website:

Office of Energy

The Office of Energy is housed within the Department of Agriculture and Consumer Services and is the primary organization for state energy and climate change programs and policies. The office holds a variety of responsibilities, including administering financial incentive programs; administering the provisions of the Florida Energy and Climate Protection Act; representing Florida in the Southern States Energy Compact, performing or coordinating the functions of any federal energy programs delegated to the state; and providing recommendations to the Governor and the Legislature. The office will also work cooperatively with other state entities, including the Florida Public Service Commission and the Florida Energy Systems Consortium, to develop state energy and climate change policies and programs.

NATURAL GAS FUEL FLEET VEHICLE REBATE PROGRAM
 RULE 50-4.001, FLORIDA ADMINISTRATIVE CODE

ADAM H. PUTNAM
 COMMISSIONER

Applications must be submitted to the Florida Department of Agriculture and Consumer Services, Office of Energy, 600 South Calhoun Street, Suite 251, Tallahassee, Florida 32399-0001, by certified mail or hand-delivery no later than 5:00 P.M. Eastern Standard Time on June 30 of the fiscal year for which this application is to be considered.

The Department's ability to authorize rebates pursuant to the Natural Gas Fuel Fleet Vehicle Rebate Program (Program), Section 377.810, Florida Statutes, is contingent upon an annual appropriation by the Legislature of the State of Florida for the specific purpose of funding the Program. In the event of a state revenue shortfall, funding for the Program may be reduced. The Department, in accordance with direction from the Governor and/or Legislature, shall be the final determiner of the availability of any funds.

One or the other.
NOT both.

ECONOMIC DATA	
<i>According to s. 377.810, F.S., applicants must submit a description of the converted or leased/donated vehicle's economic impact in Florida. Please accompany your projections below with a narrative describing how you arrived at your projections. When making the following projections, please use the following motor fuel equivalent gallon conversions:</i>	
Compressed natural gas-	Gasoline Gallon Equivalent = 5.660 pounds Diesel Gallon Equivalent = 6.312 pounds
Liquefied natural gas-	Gasoline Gallon Equivalent = 5.37 pounds Diesel Gallon Equivalent = 6.06 pounds
Liquefied petroleum gas-	Gasoline Gallon Equivalent = 1.35 gallons Diesel Gallon Equivalent = 1.30 gallons
The total dollar value of investment in alternative fuels as a result of the project that is eligible for a Natural Gas Fuel Fleet Vehicle Rebate	
The projected amount of gasoline/diesel saved as a result of the vehicle purchase/lease or conversion (in gallons per year saved)	
The projected amount of money saved as a result of the vehicle purchase/lease or conversion (in dollars per year saved)	
Economic Data Narrative: Please use the space below (or attach separate page(s) to the application) to describe how the projected economic data was calculated. For more information on what economic data is required, please see Rule 50-4.001(4), F.A.C.	
Legible copies of the documents, in place of originals, will be accepted. If the Florida Department of Agriculture and Consumer Services, Office of Energy, determines the supporting documentation is illegible, the application will be determined incomplete. Incomplete applications submitted to the department will not secure a place in the first-come, first-served application process. FDACS-1179 Rev. 10/13 Page 5 of 5
