Metropolitan/Regional Transportation Planning, Policy and Processes  
Government Relations and Legislative/Regulatory Analysis  
Public Involvement

**Representative Experience**

- Provide ongoing transportation planning and policy support to the Florida Metropolitan Planning Organization Advisory Council (MPOAC), including legislative and regulatory analysis.
- Lead statewide training of metropolitan planning organization (MPO) Board members and other participants in the metropolitan transportation planning process (the MPOAC Institute).
- Assisted with the development of two national assessments of social equity in MPO decision-making processes funded by the Center for Transportation Equity, Decisions, & Dollars (CTEDD).
- Led two national comprehensive assessments of MPO organizational structure, staffing, governance, and operation for the Federal Highway Administration (2010 and 2018).
- Completed a statewide comprehensive assessment of MPO and transit agency planning coordination practices with a specific focus on planning document coordination.
- Conducted two statewide assessments on the practice of public involvement in transportation planning, focusing on Florida Department of Transportation (FDOT) Districts and MPOs.
- Developed a public involvement performance measurement framework and evaluation tool for FDOT.
- Evaluated the long range transportation planning process in the State of Florida based on a review of Florida's metropolitan long range transportation plans and supplemental research.
- Conducted organizational structure reviews of MPOs including the 3 MPOs in the Tampa Bay area, the Capital Area Metropolitan Planning Organization in Raleigh, NC, and the Broward County MPO in Ft. Lauderdale, FL.
- Provided research support for the update of the 2025, 2050, and 2060 Florida Transportation Plans (FTP) relating to the coordination of statewide and metropolitan visions and goals.
- Assessed regional transportation planning coordination and MPO structures in the State of Florida.
- Developed guidelines for integrating access management into metropolitan planning processes and practices as co-author of National Cooperative Highway Research Program (NCHRP) Report 548: A Guide for Including Access Management in Transportation Plans.
- Developed a corridor preservation training and model corridor preservation ordinance for local agencies and MPOs in the Panhandle region of Florida.
- Represented FDOT in the regional transportation planning process in the Orlando metropolitan area as the FDOT Liaison to MetroPlan Orlando.
- Conducted a variety of transportation planning studies including long range transportation plans, transportation improvement programs, unified planning work programs, multi-modal investment studies, access management studies, corridor preservation studies, traffic impact studies, parking studies, and intersection analyses.
